Cautionary Statement

Forward-looking information
This document contains statements about expected or anticipated future events and financial results of Lucara that are forward-looking in nature and are based on Lucara’s current expectations, estimates and projections. This forward-looking information is subject to certain risks and uncertainties, such as legal and political risk, civil unrest, general economic, market and business conditions, the regulatory process and actions, technical issues, new legislation, competitive and general economic factors and conditions, the uncertainties resulting from potential delays or changes in plans, the occurrence of unexpected events and management’s capacity to execute and implement its future plans. The actual results, activities, performance or achievements of Lucara may differ materially from those projected by management. A discussion of factors that may affect Lucara's actual results, performance, achievements or financial position is contained in the filings by Lucara with the Canadian provincial securities regulatory authorities, including Lucara’s 2012 annual MD&A filed on March 21, 2013 on the system for electronic document analysis and retrieval (“SEDAR”) at www.sedar.com.

Technical information
The technical information in this document for the Mothae diamond project in Lesotho (“Mothae”) and the AK6 diamond project (Karowe Mine) in Botswana is based on the following technical reports, respectively:

The authors of these technical reports are independent of the Company and are qualified persons for the purposes of National Instrument 43-101 – Standards of Disclosure for Mineral Projects (“NI 43-101”). The technical reports are available for review on SEDAR at www.sedar.com.

All currencies mentioned in this presentation are in United States Dollars (“US$”) unless otherwise mentioned.
Lucara 2014 Guidance

**Karowe**
- Forecast revenue of $150 - $160 million
- Carat production of between 400,000 - 420,000 carats
- Operating costs of $31 - $33 per tonne
- Capital expenditure of $45 - $53 million (including sustaining capital)

**Mothae**
- Initial development option finalization

**Exploration**
- Three exploration licenses applied for in Botswana with known kimberlite occurrences

9.46 carat blue diamond sold for $477,272 per carat
Capital Structure

- Listed Exchanges under Symbol “LUC”
  - TSX
  - OMX (Sweden)
  - BSE (Botswana)
- Issued share 377M
- Fully diluted shares 381M
  - Options 4.2M (C$ 0.76 WA exercise price)
  - Warrants Nil
  - Convertibles Nil
- Market Cap C$ 600 million (January, 2014)
- Debt Nil
- Cash on hand – Q4, 2013 US$ 46 million

1.79 carat pink diamond sold for $60,256 per carat
Focused on Southern Africa

- **Karowe Mine**: 100% Owned Production
- **Mothae Project**: 75% Owned Advanced Exploration

Resource Update

- Updated resource statement for the Karowe deposit issued in Dec 2013 incorporates previously unknown population of large high value diamonds
- Primary change is in the value of the diamonds
  - Centre lobe $351/ct, up from $276/ct
  - South lobe $413/ct, up from $231/ct
- Minimal changes in resource volume
- Small adjustments in grade based on bottom cut-off size
- Significant increase in in-situ value of indicated resource
  - $3.20B, up from $2.23B
• Strong operational performance through first full year of operations
• Resource performing according to expectations – except for the recovery of large, high value diamonds!!
• Plant audit facilities being utilized to ensure optimal plant performance
• Excellent safety record and housekeeping practices which reflect in excellent plant performance
Operations Update

Karowe Pit – Jan 2014

Karowe Plant – Jan 2014
During 2013, more than 438,000 carats were sold for gross revenues of $181 million.

A total of 732 diamonds larger than 10.8 carats were recovered.

These included 44 diamonds larger than 50cts, 17 diamonds larger than 100cts and 4 diamonds larger than 200 cts.

The +10.8ct diamonds contributed 52% of total revenues for 2013 and accounted for 4.2% of production.
Sales Update

- In 2013, Lucara generated revenues of $181 million from the sale of more than 438,000 carats for an average value of $412/ct.
- Lucara expects to sell between 400,000 and 420,000 carats of diamond in 2014.
- Sales will occur through 8 Regular tenders and 2 Exceptional Stone Tenders (“EST”).
- First EST expected to be held early in Q2.
- Development of sales migration plan during 2014 in order to conduct all regular sales in Gaborone starting in 2015.
- Commissioning of a dedicated diamond cleaning facility in Gaborone.

Exceptional Stone Tenders contributed $72 million to 2013 revenues with the sale of 45 diamonds with an average price of $24,400 per carat.
2014 Capital – Plant Upgrade

Plant Modifications

• Planned as part of the original feasibility study to address the treatment of harder and higher yield south lobe material
• Upgrade designed to ensure sustainable 2.5 million tonnes per annum throughput
• Inclusion of a “Large Diamond Recovery” circuit treating material up to 60mm in size

Capital Costs and Schedule

• Estimated capital expenditure of $45 to $50 million
• Complete installation and commissioning scheduled for Q4, 2014
  – Engineering well advanced
  – Orders placed for long-lead items (crushers, sorting machines)
  – Allowance of 30 days of downtime for integration of new equipment
Management’s Focus

**Lucara**
- Continue to strengthen balance sheet
- Develop resource extension programs for potential new and current assets

**Karowe**
- Estimated annual diamond revenue of $150 - $160 million
- Carat production of 400,000 - 420,000 carats
- Operating costs of US$31 - US$33 per tonne processed
- Delivery of capital project with minimal interruption to normal operations

**Mothae**
- Finalize development plan for Mothae (short and medium term)
