Karowe Mine

The Karowe mine – commissioned Q2, 2012, commercial production July 2012 and proving to have far more to offer than originally anticipated.

9.46 carat blue diamond recovered in Oct 2012, sold for $4.51 million ($477,424/ct)

239 carat diamond recovered in March 2013, sold for $5.7 million.

One of 85, +10.8ct diamonds recovered during a single production cycle
Karowe – The Mine

Mining at Karowe focused on long-term sustainability
- Mining according to plan
- Opening sufficient area to provide flexibility in plant feed

Current mining is focused on the Centre lobe with stripping of the South. The Centre lobe forms the majority of material processed in 2013
Karowe – The Plant

Mill and crushed ore stockpile

DMS, Recovery, Sorthouse and Tailings Systems
Karowe Mine – Status Update

- Process plant operations are mature with greater understanding of AG mill operational parameters
- Mine is currently running at or above design capacity
- Water resources effectively being managed through process optimization and feed material selection
- Process changes made to increase top-size of material processed following the recovery of large diamonds
- Major maintenance activities scheduled for May moved to January
Karowe Mine – Diamond Sales

- Eight sales planned for 2013 (two per quarter) averaging 50,000 carats per sale
- Average sales value for Q1 sales at $243/ct (excl. diamonds not sold in Dec.)
- 18,233 carats of smaller size diamonds held over from December sale due to low bidding volume.
- Sales assortments more consistent with larger sales volumes.
- Careful management of sales lots required as diamond quality shifts with the recovery of centre lobe diamonds

Karowe Diamond Sales - 2013

- Sales assortment more consistent with larger sales volumes.
- Careful management of sales lots required as diamond quality shifts with the recovery of centre lobe diamonds.
In March a 239 carat diamond was recovered at Karowe.

Following this recovery, over a 6 week period, 84 more diamonds larger than 10.8 carats were recovered, including 6 diamonds larger than 50 carats and 28 diamonds larger than 20 carats.

On May 22, 2013, all stones were sold for gross proceeds of $24.5 million ($30,468/carat).

All large diamonds recovered during a single production cycle.
The Diamonds of Karowe

70.91 cts sold for $2.76 million

50.72 cts sold for $3.3 million

123.63 cts sold for $4.54 million
