Cautionary Statement

Forward-looking information

Certain of the statements made and contained herein and elsewhere constitute forward-looking statements as defined in applicable securities laws. Generally, these forward-looking statements can be identified by the use of forward-looking terminology such as "expects", "anticipates", "believes", "intends", "estimates", "potential", "possible" and similar expressions, or statements that events, conditions or results "will", "may", "could" or "should" occur or be achieved.

Forward-looking statements are based on the opinions and estimates of management as of the date such statements are made, and they are subject to a number of known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievement expressed or implied by such forward-looking statements. The Company believes that expectations reflected in this forward-looking information are reasonable but no assurance can be given that these expectations will prove to be accurate and such forward-looking information included herein should not be unduly relied upon.

In particular, this release may contain forward looking information pertaining to the following: potential to expand the life of mine; updated resource and reserves for the Karowe Mine, including the Underground and the total expected life of mine production; estimates of the Company's production and sales volumes for the Karowe Mine, including the Underground and associated cash flow and revenues; estimates of the economic benefits of the Underground, including the payback period; pre-production capital costs for the Underground and the quantum required, and availability of external financing; anticipated operating margins for the Underground operations; the ability to integrate the underground operations seamlessly into the existing infrastructure; the anticipated mine plan and mining methods; the schedule of development of the underground, production profile and anticipated changes in diamond pricing, including trends in supplies and demands and the potential for stability in the diamond market and diamond pricing; changes to foreign currency exchange rate; the timing and ability of management to further commercialize the Clara digital sales platform and other forward-looking information.

There can be no assurance that such forward looking statements will prove to be accurate, as the Company's results and future events could differ materially from those anticipated in this forward-looking information as a result of those factors discussed in or referred to under the heading "Risks and Uncertainties" in the Company's most recent Annual Information Form available at http://www.sedar.com, as well as changes in general business and economic conditions, changes in interest and foreign currency rates, the supply and demand for, deliveries of and the level and volatility of prices of rough diamonds, costs of power and diesel, acts of foreign governments and the outcome of legal proceedings, inaccurate geological and recoverability assumptions (including with respect to the size, grade and recoverability of mineral reserves and resources), and unanticipated operational difficulties (including failure of plant, equipment or processes to operate in accordance with specifications or expectations, cost escalations, unavailability of materials and equipment, government action or delays in the receipt of government approvals, industrial disturbances or other job actions, adverse weather conditions, and unanticipated events relating to health safety and environmental matters).

Accordingly, readers are cautioned not to place undue reliance on these forward-looking statements which speak only as of the date the statements were made, and the Company does not assume any obligations to update or revise them to reflect new events or circumstances, except as required by law.

All currencies mentioned in this presentation are in United States Dollars ("US$") unless otherwise mentioned.
2019 Highlights

(All currency figures in U.S. Dollars, unless otherwise stated)

Karowe Diamond Mine (100%)
Very strong safety record & Operational results; First Place Winner - Botswana Chamber of Mines Inter-Mines First Aid Competition
Operating costs of $31.88 per tonne of ore processed below guidance; Operating Margin ~60%
Revenue of $192.5 million exceeding annual guidance (including Clara) vs. 2018 revenue of $176.2 million
Record diamond recovery - Sewelô Sewelô 1,758 carats
241 carat stone sold for $8.1 million; 127 carat stone sold for $5.14 million; 165 carat sold for $3.97 million
Positive Underground Feasibility Study: Doubling the mine life

Clara Diamond Solutions (100%)
Fifteen sales completed for proceeds of ~$8 million
20th sale ongoing
Sales frequency and value increasing; Doubled number of sales and total value transacted in H2
Customer base grew from 4 to 27 participants; Now 32 participants on the platform

Strong Balance Sheet & Dividend Policy Change
$22.4 million in dividends paid
Decision to suspend quarterly dividend to focus on early works for underground development
Cash and cash equivalents of $11.2 million
No long-term debt; $50 million credit facility undrawn
Sewelô Collaboration with Louis Vuitton

**Botswana’s Largest Diamond**

Sewelô “rare find”, an unbroken 1,758 carat near gem quality diamond recovered in April 2019

Collaboration between Lucara (50%), Louis Vuitton (25%), HB Company (25%) - planning, cutting and polishing a collection of diamonds from Sewelô

Lucara to receive an upfront non-material payment from the JV partners; LUC to participate in 50% of the proceeds of the polished diamonds that result

5% of all the retail sales proceeds from the historic jewellery collection will be invested back into Botswana community-based initiatives
Record Recoveries

549 carat diamond recovered

Recovered **unbroken** from the MDR (Mega Diamond Recovery) XRT circuit

A diamond of **exceptional purity**

Recovered from direct milling ore sourced from the **EM/PK(S) unit of the South Lobe**

Follows the recent recovery of a **gem quality 176 carat** stone from the same ore block

**EM/PK(S) unit continues to produce large gem quality diamonds;** Important economic driver for the **Karowe Underground**
Consistent Recovery of Large Diamonds

Specials contribute ~70% by revenue and ~5% by volume

Revenue and production includes 2015 to 2019

Life of mine recovery of 157,000 carats of individual stones > 10.8ct (over 5,400 diamonds, all sources)

Since 2012: 15 diamonds in excess of 300 carats have been recovered, including 2 diamonds > 1,000ct

10 diamonds sold for > US$ 10 million each (not included in resource value models)

Karowe Cumulative Specials (carats)
Global Achieved Average Diamond Prices 2018/2019

(All figures in U.S. Dollars per carat)

Lucara’s Average price ~4x Global Average
Diamond Market

Long term fundamentals strong but pricing environment has been challenged; Evidence of market stability

Rough diamond supply and demand

![Graph showing supply and demand for rough diamonds from 2000 to 2030, with optimistic and base scenarios, 2000-2030: 2019 prices, constant exchange rates, optimistic and base scenarios.]

Note: Rough-diamond demand has been converted from polished-diamond demand using a historical ratio of rough to polished diamond values. Source: Bain & Company - Global Diamond Report 2018

Millennials will be the highest-spending generation from 2020 and the leaders in luxury spending, especially in China.
Diamond Sales Highlights 2019

(All currency figures in U.S. Dollars)

Total proceeds of $192.5 million (including Clara); Strong December tender; Higher carat recovery yoy

Average Price $468/carat

30 diamonds which sold for > $1 million, including 7 for > $3 million

241 carat sold for $8.1 million; 127 carat sold for $5.14 million; 165 carat sold for $3.97 million

2019 is the first full year for Blended Tenders resulting in a smoother revenue profile & decreased time to market for high value diamonds

786 Specials recovered, representing 6.1% weight percentage of total recovered direct milling carats including the 1,758 carat Sewelô, the largest stone recovered in Karowe’s history

31 stones > 100 carats

Karowe Underground
Extending Mine-life to 2040

UG development will **double the mine life** from original 2010 Feasibility Study

Resource work completed since November 2017 identified a much larger economic opportunity at depth, on the basis of new drilling and open pit recoveries.

UG would add ~ **US$4 billion** in additional net revenue

+**US$200 million** in revenue from ‘exceptional’ diamonds not included in economic analysis: Potential for + **US$500 million** in additional revenue over proposed new LOM.
In the first half of 2020, the Company will focus on detailed engineering and early procurement initiatives. Based on the assumptions used for this evaluation, the project shows positive economics and should proceed to detailed engineering, financing, and construction.

The Company will also be reviewing financing options and will update the market when such decisions are reached.

The anticipated capital requirements in 2020 represent less than 10% of the initial capex estimate for the underground project. The Company anticipates funding initial expenses from cash flow, as financing options are explored.
19 sales completed with ~US$11 million of diamonds sold by value through the platform

Manufacturers on the platform have grown from 4 to 32 customers

Focus on growing supply and demand concurrently through adding third-party production to the platform and increasing the number of manufacturers/buyers invited to join

Discussions are underway to add third party supply to the platform

~US$11 million diamonds sold by value between one and ten carats in size, in better colours and qualities

Nineteen sales between December 2018 and February 2020

POSITIVE RESULTS

Frequency of sales and number of participants increasing

20th sale ongoing
Conclusions

Lucara is a premier, mid-tier, investible diamond company, positioned for long term, sustainable growth

- High margin diamond producer
- Botswana - a low risk jurisdiction
- Strong balance sheet
- Open pit mineable reserves to 2026, Underground reserves will double the mine life to 2040
- Asset diversification and additional revenue stream through Clara
